

Chat-Bot vs AI Agents

Core Function: A Chatbot is designed primarily for *conversation* and answering questions based on predefined rules or text generation. An AI Agent is designed for *action*, executing multi-step tasks and workflows to achieve a specific goal.

Autonomy & Reasoning: Chatbots follow linear, reactive scripts or prompt responses (they wait for user input to respond). AI Agents possess reasoning capabilities, enabling them to break down a complex objective, plan steps autonomously, and adapt if something fails.

Tool Usage & Integration: Chatbots typically interact only within the chat window using text. AI Agents actively use external tools, such as executing code, querying databases, calling APIs, browsing the web, or modifying files.

Scope of Operation: Chatbots handle single-turn or short multi-turn informational exchanges (e.g., FAQ support). AI Agents manage end-to-end operational processes (e.g., booking a flight, debugging a codebase, or automating data pipelines).

In short: A chatbot talks to you about information; an AI agent works for you to complete a task.

PRIVACY POLICIES

1. Open AI

- 1) **Account Information:** When you create an account with us, we will collect information associated with your account, including your **name, contact information, account credentials, date of birth, payment information, and transaction history, (collectively, “Account Information”)**. Some of our Services may also allow you to upload a profile picture, a username, or other information as part of your Account Information.
- 2) **User Content:** We collect Personal Data **that you provide in the input to our Services (“Content”), including your prompts and other content you upload, such as files, images, audio and video, Sora characters, and data from connected services,** depending on the features you use. Some of our Services allow you to interact with other users, such as post, comment, or send messages, and we treat those interactions as Content, too.
- 3) **Communication Information:** If you communicate with us, such as **via email or our pages on social media sites,** we may collect **Personal Data like your name, contact information, and the contents of the messages you send** (“Communication Information”).
- 4) **Contact Data:** If you choose to connect your device contacts, we upload information from your device address books and check which of your contacts also use our Services. If any of your contacts aren’t yet using our Services, we’ll update you if they sign up for our Services later. Learn more about connecting

your contacts and about how we use uploaded contact information of people who don't use our Services.

- 5) Other Information You Provide: We collect other information that you provide to us, such as **when you participate in our events or surveys, or when you provide us or a vendor operating on our behalf with information to establish your identity or age** (collectively, "Other Information You Provide").
- 6) Personal Data We Receive from Your Use of the Services: When you visit, use, or interact with the Services, we receive the following information about **your visit, use, or interactions**:
- 7) Log Data: We collect information that your browser or device automatically sends when you use our Services. Log data includes your **Internet Protocol address, browser type and settings, the date and time of your request, and how you interact with our Services**.
- 8) Usage Data: We collect information about your use and activity across the Services, such as the **types of content that you view or engage with, the features you use and the actions you take, when you submit feedback to a model response, the people with whom you interact, as well as your time zone, country, the dates and times of access, user agent and version, type of computer or mobile device, and your computer connection**. If you use the Atlas browser we may also collect your browser data according to your controls and use of the service.
- 9) Device Information: We collect information about the device you use to access the Services, such as the **name of the device, operating system, device identifiers, and browser you are using**. Information collected depends on the type of device you use and its settings.
- 10) Location Information: We determine the general area from which your device accesses our Services based on information like its **IP address for security reasons** and to make your product experience better, for example to protect your account by detecting unusual login activity or to provide more accurate responses. In addition, some of our Services allow you to choose to provide more precise location information from your device, such as **as location information from your device's GPS**.
- 11) Cookies and Similar Technologies: We use cookies and similar technologies to operate and administer our Services, and improve your experience. We store some of the information described in this Policy with cookies, for example to help maintain your preferences across sessions **if you're not logged in, or to assist with authentication and customer support**. For details about our use of cookies, please read our Cookie Notice.
- 12) Information We Receive from Other Sources: We receive information from other sources, such as our **trusted security and safety partners to protect safety and prevent fraud, abuse, and other threats to our Services, and from marketing vendors** who provide us with information about potential customers of our business services.
- 13) We also collect information from other sources, like **information that is publicly available on the internet**, to develop the models that power our Services. For more information on the sources of information used to develop the models that power ChatGPT and other Services, please see this help center article.

2. Anthropic

- 1) Identity and Contact Data: Anthropic collects **identifiers, including your name, email address, and phone number** when you sign up for an Anthropic account, or to receive information on our Services. We may also collect or generate indirect identifiers (e.g., “USER12345”).
- 2) Payment Information: We shall **collect your payment information if you choose to purchase access to Anthropic’s Services**.
- 3) Inputs and Outputs: You are able to interact with our Services in a variety of formats, including but not limited to chat, coding, agentic sessions (where Claude performs multi-step tasks or takes actions on your behalf), and connected services. The **content you submit to the Services through these interactions, including via third-party applications, services, and content you choose to upload, integrate or interact with using our Services, are your “Inputs”**. Inputs generate responses and actions (“Outputs”). **If you include personal data or reference external content in your Inputs**, we will collect that information and it may be **reproduced in your Outputs**. Depending on the permissions you grant Claude, some Outputs may result in actions with effects outside the Services, such as sending communications, modifying files, or interacting with third-party services on your behalf.
- 4) Feedback on your use of our Services: We appreciate feedback, including ideas and suggestions for improvement or rating an Output in response to an Input (“Feedback”). If you rate an Output in response to an Input—for example, by using the thumbs up/thumbs down icon—**we may store the entire related conversation as part of your Feedback**. You can learn more about how we use Feedback here.
- 5) Study Participation Data: If you participate in Anthropic research studies, surveys, or interviews (for example our Anthropic Interviewer), **we collect the responses you provide, associated account data, and related Technical Information**. We may combine this data with other data from your account for aggregated analysis.
- 6) Communication Information: If you communicate with us, including via our chatbot on our Help site, we collect your **name, contact information, and the contents of any messages you send**.
- 7) Verification Data: In certain circumstances, we may ask you to verify your age or identity. If you choose to do so, data we will collect includes, depending on the method: **an image of your government-issued identity document and the information appearing on it (such as your ID number and date of birth); your image in photo or video form, facial geometry templates (which may be considered ‘biometric data’ in some jurisdictions); and the result of the verification (for example, whether your age meets the applicable threshold)**.
- 8) When you provide Inputs—including by **uploading files, granting Claude access to third-party services, or instructing Claude** to retrieve or act on information—you are responsible for ensuring you have the necessary rights, permissions, or authority to do so.
- 9) Device and Connection Information: Consistent with your device or browser permissions, your device or browser automatically sends us information about when and how you install, access, or use our Services. This includes information such as your **device type, operating system information, browser information and web page referers, mobile network, connection information, mobile operator or internet service provider (ISP), time zone setting, IP address (including information about the location of the device derived from your IP address), identifiers (including device or advertising identifiers, probabilistic identifiers, and other unique personal or online identifiers), and device location**.

- 10) Usage Information: We collect information about your use of the Services, such as the **dates and times of access, browsing history, search, information about the links you click and about third-party applications, services, and content you integrate or interact with, pages you view, and other information about how you use the Services, and technology on the devices** you use to access the Services.
- 11) Log and Troubleshooting Information: We collect information about **how our Services are performing when you use them**. This information includes log files. If you or your device experiences an error, we may collect information **about the error, the time the error occurred, the feature being used, the state of the application when the error occurred, and any communications or content provided at the time the error occurred**.
- 12) Cookies & Similar Technologies: We and our service providers use cookies, scripts, or similar technologies (“Cookies”) to manage the Services and to collect information about you and your use of the Services. These technologies help us to recognize you, customize or personalize your experience, market additional products or services to you, and analyze the use of our Services to make them safer and more useful to you.
- 13) **Publicly available information via the Internet**
- 14) **Datasets that we obtain through commercial agreements with third party businesses**
- 15) **Data that our users or crowd workers provide, including Inputs and Outputs from our Services**
(unless users opt out)
- 16) **Feedback that users explicitly provide about our Services**
- 17) **Materials flagged for safety, security, or policy review**
- 18) **Data that we generate internally**

3. Google Gemini

- 1) What you say to Gemini Apps (**like the prompts you submit or speak, and tasks you ask Gemini to do for you**)
- 2) What you share with Gemini Apps (**like files, videos, screens you ask about, photos, imported chats, and page content you share from your browser**)
- 3) **Transcripts and recordings of your interactions with Gemini Live (including audio, video and screens you share with Live)**
- 4) **Your feedback**
- 5) Instructions you provide, for example, in Gems and Skills as well as **Instructions for Gemini (“Saved Info” in some locales)**
- 6) **Information we collect as you use Gemini Apps**
- 7) **Content that Gemini Apps generates (like text, code, audio, images, video, music, public links, citations, chat summaries, and personalized insights)**
- 8) Information about steps our **technologies take to do tasks for you or respond to your prompts, like model thinking steps**
- 9) Information from **your apps, browsers, and devices**

- 10) Information from your Connected Apps (including third-party services such as Model Context Protocol server tools) and other Google services you use with Gemini Apps (such as your Search or YouTube history, or your page context and URL from Chrome)
- 11) Information about the apps on your device (for example, to help you get things done using your apps)
- 12) Information about the apps, browsers, and devices you use to access Gemini Apps (such as identifiers, browser type and settings, device type and settings, operating system)
- 13) Interaction of your apps, browsers, and devices with Gemini Apps (such as interaction logs, performance metrics, crash and debug information)
- 14) System permissions and device data when you use Gemini mobile apps, such as call and message logs, contacts (to help you keep in touch), installed apps (like Clock), language preferences (to help you speak to Gemini), screen content (to help you act on it), and other app info like page context and URL (when you use Gemini overlay to ask questions)
- 15) Remote browser data like cookies that contain your website authentication info and screen captures or other page content
- 16) Context info from devices and services you use with Gemini (such as smart home device names and playlists)
- 17) Data about your interactions with public Gemini Apps content
- 18) Supplemental information: information collected through supplemental Gemini Apps features you choose to use.
- 19) Location information: the general area from your device, IP address, or Home or Work addresses in your Google Account. Learn more at g.co/privacypolicy/location.
- 20) Subscription information: if you have a paid subscription to a Google AI plan, subscription related information.
